

2005				
2004	SAP PP MM	<u>VISTEON (NISSAN)</u>	AUTOMOTIVE	

SAP Project Experience details

2011-2022	SAP Supply Chain Consultant – PP MM	<i>freedsap</i>
	<p>Proof of Concept</p> <ul style="list-style-type: none"> • <i>POC around PP functionalities considering the existing processes built mainly around PS</i> 	MACHINERY
	<p>Full-cycle Implementation</p> <ul style="list-style-type: none"> • <i>SAP PP implementation for one Italian plant with definition of PP standards for core model</i> • <i>Design, customizing, tests, data migration, Integration with PS, CO</i> 	MACHINERY
	<p>Carve out of existing US solution for integration in FR-based business unit core model</p> <ul style="list-style-type: none"> • <i>SAP PP and PLM reference consultant, fit-gap analysis workshops conduction</i> • <i>Re-Design of planning process flow, migration preparation, integration with MM, SD, QM</i> 	AVIONICS
	<p>Roll-out Implementations</p> <ul style="list-style-type: none"> • <i>SAP PP implementation for two plants inside an existing MM-FICO-SD core system</i> • <i>Design, customizing, tests, data migration and training, Integration with MM, SD, CO</i> 	BAG IN BOX
	<p>Full-cycle Implementation</p> <ul style="list-style-type: none"> • <i>SAP PP implementation for two plants inside an existing MM-FI-SD core system</i> • <i>Design, customizing, Integration with CO, QM</i> 	RUBBER
	<p>Full-cycle Implementation</p> <ul style="list-style-type: none"> • <i>SAP PP and MM implementation for a specific plant inside an existing core system</i> • <i>Design, customizing, tests, data migration and training</i> • <i>Integration with CO</i> 	BAG IN BOX
	<p>Implementation of MRP and Interface with PREACTOR scheduling system</p> <ul style="list-style-type: none"> • <i>Implementation of LTP MRP for several plants inside an existing core system</i> • <i>Assistance in functional/technical specification of interface between SAP and PREACTOR</i> • <i>Coordination and follow-up of development with on and offshore developers</i> 	GLASS
	<p>Spot consulting PP</p> <ul style="list-style-type: none"> • <i>Improvements on existing processes and functionalities around PP</i> • <i>Solution Auditing, Training of End Users, ...</i> 	Various
	<p>Full-cycle Implementation</p> <ul style="list-style-type: none"> • <i>SAP PP & MM implementation on-site following spin off from previous core system</i> • <i>Design, customizing, tests, data migration and training</i> 	ENGINEERED TEXTILES
	<p>Design & implementation of Interface with PREACTOR scheduling system</p> <ul style="list-style-type: none"> • <i>Design and functional/technical specification of interface between SAP and PREACTOR</i> • <i>Coordination and follow-up of development with on and offshore developers</i> 	PERFUMES & COSMETICS
	<p>Re-engineering & DESIGN phases</p> <ul style="list-style-type: none"> • <i>Analysis of the technical quotation processes and paper supply management</i> • <i>Analysis of the existing software used for technical quotation, aiming for its replacement</i> 	BOOK PUBLISHING

- *Re-engineering exercise and solution design with scenarios combining different software*
- *proof of concept around the use of production orders in SAP, and integration with controlling pre-requisites*

Full-cycle Implementation - core model ROLL OUT

AUTOMOTIVE

- *fit/gap analysis, blueprint, data migration, simulation, test and training*
- *Manufacturing coverage: PP, MM, SD and shop floor MES system (MII) implementation*
 - PP-REM template: Customer EDI, SOP, CRP, MPS & MRP
 - SAP MII implementation: configuration and training
 - Integration with CO, QM and data migration via LSMW

PP MM consulting - Supply Chain project manager - DESIGN, BUILD, RUN phases

PERFUMES &
COSMETICS

- *Within a customer owned competence center working for several brands*
- *SAP PP support role via helpdesk tickets resolution (40%)*
- *Supply chain project manager and consultant for PP and MM focused projects (60%)*
 - PP-CRP: CM25 customizing, bespoke development specifications and test
 - VMI with customer: solution design, customizing, EDI specifications, test
 - VMI with vendor: feasibility study with solution costing, design and mockup
 - MM subcontracting: replacing PP subcontracting, customizing new EHP4 functionalities
 - Integration with WM, QM, SD, CO & mass management via CEWB, LSMW, CATT, SQVI

PP deployment - DESIGN, BUILD, RUN phases

VALVES &
CONTROLS

- *Implementation of PP module mainly around SAP standard MRP, CRP, ATP, LTP*
- *Re-engineering of processes, workshops, solution design, customizing, tests and training*
- *Liaising with supply chain manager to build action plan around key deliverables*
 - Replacement of PREACTOR scheduling software by SAP CM25: fit/gap analysis, customizing, documentation and training
 - Modification of MRP scheduling logic, missing parts management and ATP check
 - Modification of shop floor execution processes around production declaration
 - Implementation of Long Term Planning: design, customizing and test
 - Feasibility study on Sales & Operations Planning (SOP) & integration with Controlling
 - Integration with MM, CO & mass management via CEWB, LSMW

PP implementation - DESIGN

FOOD

- *Assisting the implementation of PP module - SOP, LTP, CRP, MPS/MRP, SFC*
- *Proof of concept for different functionalities to cover process industry standards with comparison of functionalities from PP, PP-PI and PP-REM*
- *Workshops, solution design, customizing, documentation and knowledge transfer*

2008-2011 SAP Senior Consultant – Industrial manufacturing – PP MM

DESIGN & MOCKING-UP phases

AERONAUTIC

- *Solution design for cross-system planning & execution processes*
- *Fit/gap analysis, feasibility studies and mocking up of end-to-end flows between two SAP systems around a customer-supplier relationship model*
 - PO-SO and scheduling agreements EDI exchange setup between 2 SAP systems
 - E2E flow mockups: Cross-system planning, LTP, MRP, Kanban, VMI, procurement
 - Presentation and mockup of new EHP functionalities (Outsourced Mfg & Kanban)
 - Integration with PS, SD, WM, FI/CO with complexity over non valuated flows
- *Solution documentation and management with SAP Solution Manager*

RUN phase (spot consulting)

- *Solution review on S&OP, Forecasting, MRP scheduling and capacity analysis*
- *Solution review on production planning and execution processes*
- *Analysis and test around HR functionalities integrated in PP module*
- *Analysis of existing supply chain to integrate 3rd party flows & solution recommendation*

F&B
BUILDING
ELECTRONICS
COSMETICS

2005-2008 SAP Supply Chain Consultant – PP MM SD

DESIGN, BUILD phases

- *Deployment of core model with migration from legacy systems, “MRP work stream” lead*
- *Implementation of new functionalities to live UK sites*
- *Implementation preparation (FR, DE): workshops, fit/gap analysis, design, customizing & test*
 - Customizing MRP and CRP related parameters
 - Training documentation & delivery through an End-to-End Plan-To-Make flow
 - Integration with PS, CO, QM

SATELLITES

RUN phase

- *Post-go live support, interfacing mainly with key users*
 - Level 2 support around production execution, LTP and PP master data
 - Implementation of new functionalities with customizing and testing phases
 - Creation of queries (SQ01, 02, 03)

AERONAUTIC

SCOPING phase

For the head of IT department, Roadmap delivery for the front office applications (APO & BW):

- *Scoping of the existing systems landscape and SWOT analysis*
- *Planning of the applications roadmap evolution (workshop qualification and costing)*

ELECTRONICS

RUN phase

For the In-flight Product Logistics department:

- *Training of new Field Application Managers on the SAP core model*
- *Re-engineering of warehouse receiving and order monitoring processes*
- *Operational support on warehouse operations & training of local staff*
- *Root cause analysis of issues and delivery of a corrective action plan*

PASSENGER
TRANSPORT

SAP project phases: BUILD, RUN

For the Service Parts Logistics department, supporting the core model roll out in Austria:

- *Functional tests, interfaces tests, batch jobs monitoring*
- *Issues resolution and assistance to the MM business leader*

AUTOMOTIVE

RUN phase

Supporting In-flight Product Logistics department in the post-go live phase:

- *Fit/gap analysis between target & existing business processes*
- *Update of business processes & related SAP training documentation*
- *End users support and resolution of daily operational issues*

PASSENGER
TRANSPORT

DESIGN, BUILD phases

Within the Roll in context of the group core model:

- *Participation to the detailed definition of « Enquiry to Payment » flows*
- *Workshops and gap analysis between core model and specific site requirements*

PAPER

- Functional specifications for customizing requirements and bespoke developments

2004-2005 Internal SAP Consultant – PP MM

BUILD, RUN phases

- Scoping, user requirements analysis, functional specifications (PtoP, PtoM)
- Gap analysis with existing US model
- Logistics procedures definition, documentation, end users training
- Leading integration and user acceptance testing
- Supervision of external consultants
- Supervision and leadership on Kanban operations
- Project planning and reporting

AUTOMOTIVE

Other Project Experience

2002-2003 Supply Chain projects

Internal Consultant

- Logistics action plan to support the production transfer from an English to an Hungarian plant

Award to Launch Support

- Study and quote of logistics solutions proposed to customers
- Creation of an intranet web site dedicated to new sites launch
- Creation of a “Plan For Every Part” model (using MS Access)

MP&L Launch Resident

- Definition and agreement of logistics procedures with the customer
- Support MRP system & EDI interface implementation
- Creation of the “Plan For Every Part”
- Coordination of the inbound supply chain, liaising with Visteon plants

VRAP Launch Resident

In UK

- Supply chain design following customer requirements
- Quote for new site MP&L related activities
- Creation of the “Plan For Every Part” and launch plan
- Study and selection of the simplest and cost effective MRP solution
- Launch readiness review lead

In SPAIN

- Implementation of a Kanban replenishment system
- Logistics procedures definition
- Operational resources planning and training
- Creation of the “Plan For Every Part”
- Implementation of “visual factory” and “lean manufacturing” standards

1998-2001 Logistics Analyst

Re-engineering of the pan-European supply chain of service parts
 Responsible for transport:

- Strategic approach for market tender & forwarders selection
- Feasibility study, simulations & implementation with logistics provider
- Contract negotiation
- Modeling of European freight flows and costs to extract future savings

Country manager for France:

- Analysis of distributor’s logistics operations and costs
- Negotiation with distributor on costs and practical adaptation to the new Dealer Service Policy

Following a “Day 1” action plan:

- Synchronization of operations with ‘Systems Planning’ and ‘Depot Planning’ departments

AUTOMOTIVE

1997-1998 Logistics Controller

Procurement and inventory control within budgeted levels (1,200 refs)

- Acting as logistics interface with supplier and responsible for customer service rate
- Service rate improved via participation to:
 - Development of new MRP system specifications
 - Identification and implementation of re-sourcing possibilities
 - Supplier integration development programme

AUTOMOTIVE

Languages:

French (native) ★★★★★

Spanish (fluent) ★★★★★

English (fluent) ★★★★★

Italian (average) ★★

SAP Training & Certifications

- Certification Planning & Manufacturing with SAP ERP 6.0 (PLM114, SCM240, SCM310)
- Certification Solution manager Implementation projects with SM (SMI310)
- Cross-functional customizing in MM (SCM550)
- Finance/Logistics interface (WFRIFL)
- SAP ME (Manufacturing execution) SAP Internal training and delta training (DME52 Delta)

Diploma

ESCI Business school (Fontainebleau) International Affairs Negotiator, Bac +5
