Projets SAP – détails des Missions

2011-2022	SAP Supply Chain Consultant – PP MM	freedsap
	<p>Proof of Concept</p> <ul style="list-style-type: none"> • POC around PP functionalities considering the existing processes built mainly around PS 	MACHINERY
	<p>Full-cycle Implementation</p> <ul style="list-style-type: none"> • SAP PP implementation for one Italian plant with definition of PP standards for core model • Design, customizing, tests, data migration, Integration with PS, CO 	MACHINERY
	<p>Carve out of existing US solution for integration in FR-based business unit core model</p> <ul style="list-style-type: none"> • SAP PP and PLM reference consultant, fit-gap analysis workshops conduction • Re-Design of planning process flow, migration preparation, integration with MM, SD, QM 	AVIONICS
	<p>Roll-out Implementation</p> <ul style="list-style-type: none"> • SAP PP implementation for two plants inside an existing MM-FICO-SD core system • Design, customizing, tests, data migration and training, Integration with MM, SD, CO 	BAG IN BOX
	<p>Full-cycle Implementation</p> <ul style="list-style-type: none"> • SAP PP implementation for two plants inside an existing MM-FI-SD core system • Design, customizing, Integration with CO, QM 	RUBBER
	<p>Full-cycle Implementation</p> <ul style="list-style-type: none"> • SAP PP-PI implementation within the deployment of a full core system • Design, customizing, tests, data migration and training, Integration with QM & WM-HUM 	PHARMA.
	<p>Full-cycle Implementation</p> <ul style="list-style-type: none"> • SAP PP and MM implementation for a specific plant inside an existing core system • Design, customizing, tests, data migration and training, Integration with CO 	BAG IN BOX
	<p>Implementation of MRP and Interface with PREACTOR scheduling system</p> <ul style="list-style-type: none"> • Implementation of LTP MRP for several plants inside an existing core system • Assistance in functional/technical specification of interface between SAP and PREACTOR • Coordination and follow-up of development with on and offshore developers 	GLASS
	<p>Spot consulting PP</p> <ul style="list-style-type: none"> • Improvements on existing processes and functionalities around PP • Solution Auditing, Training of End Users, ... 	Various
	<p>Full-cycle Implementation</p> <ul style="list-style-type: none"> • SAP PP & MM implementation on-site following spin off from previous core system • Design, customizing, tests, data migration and training 	ENGINEERED TEXTILES

<p>Design & implementation of Interface with PREACTOR scheduling system</p> <ul style="list-style-type: none"> • <i>Design and functional/technical specification of interface between SAP and PREACTOR</i> • <i>Coordination and follow-up of development with on and offshore developers</i> 	<p>PERFUMES & COSMETICS</p>
<p>Re-engineering & DESIGN phases</p> <ul style="list-style-type: none"> • <i>Analysis of the technical quotation processes and paper supply management</i> • <i>Analysis of the existing software used for technical quotation, aiming for its replacement</i> • <i>Re-engineering exercise and solution design with scenarios combining different software</i> • <i>proof of concept around the use of production orders in SAP, and integration with controlling pre-requisites</i> 	<p>BOOK PUBLISHING</p>
<p>Full-cycle Implementation - core model ROLL OUT</p> <ul style="list-style-type: none"> • <i>fit/gap analysis, blueprint, data migration, simulation, test and training</i> • <i>Manufacturing coverage: PP, MM, SD and shop floor MES system (MII) implementation</i> <ul style="list-style-type: none"> - PP-REM template: Customer EDI, SOP, CRP, MPS & MRP - SAP MII implementation: configuration and training - Integration with CO, QM and data migration via LSMW 	<p>AUTOMOTIVE</p>
<p>PP MM consulting - Supply Chain project manager - DESIGN, BUILD, RUN phases</p> <ul style="list-style-type: none"> • <i>Within a customer owned competence center working for several brands</i> • <i>SAP PP support role via helpdesk tickets resolution (40%)</i> • <i>Supply chain project manager and consultant for PP and MM focused projects (60%)</i> <ul style="list-style-type: none"> - PP-CRP: CM25 customizing, bespoke development specifications and test - VMI with customer: solution design, customizing, EDI specifications, test - VMI with vendor: feasibility study with solution costing, design and mockup - MM subcontracting: replacing PP subcontracting, customizing new EHP4 functionalities - Integration with WM, QM, SD, CO & mass management via CEWB, LSMW, CATT, SQVI 	<p>PERFUMES & COSMETICS</p>
<p>PP deployment - DESIGN, BUILD, RUN phases</p> <ul style="list-style-type: none"> • <i>Implementation of PP module mainly around SAP standard MRP, CRP, ATP, LTP</i> • <i>Re-engineering of processes, workshops, solution design, customizing, tests and training</i> • <i>Liaising with supply chain manager to build action plan around key deliverables</i> <ul style="list-style-type: none"> - Replacement of PREACTOR scheduling software by SAP CM25: fit/gap analysis, customizing, documentation and training - Modification of MRP scheduling logic, missing parts management and ATP check - Modification of shop floor execution processes around production declaration - Implementation of Long Term Planning: design, customizing and test - Feasibility study on Sales & Operations Planning (SOP) & integration with Controlling - Integration with MM, CO & mass management via CEWB, LSMW 	<p>VALVES & CONTROLS</p>
<p>PP implementation - DESIGN</p> <ul style="list-style-type: none"> • <i>Assisting the implementation of PP module - SOP, LTP, CRP, MPS/MRP, SFC</i> • <i>Proof of concept for different functionalities to cover process industry standards with comparison of functionalities from PP, PP-PI and PP-REM</i> • <i>Workshops, solution design, customizing, documentation and knowledge transfer</i> 	<p>FOOD</p>

DESIGN & MOCKING-UP phases

- *Solution design for cross-system planning & execution processes*
- *Fit/gap analysis, feasibility studies and mocking up of end-to-end flows between two SAP systems around a customer-supplier relationship model*
 - PO-SO and scheduling agreements EDI exchange setup between 2 SAP systems
 - E2E flow mockups: Cross-system planning, LTP, MRP, Kanban, VMI, procurement
 - Presentation and mockup of new EHP functionalities (Outsourced Mfg & Kanban)
 - Integration with PS, SD, WM, FI/CO with complexity over non valuated flows
- *Solution documentation and management with SAP Solution Manager*

AERONAUTIC

RUN phase (spot consulting)

- *Solution review on S&OP, Forecasting, MRP scheduling and capacity analysis*
- *Solution review on production planning and execution processes*
- *Analysis and test around HR functionalities integrated in PP module*
- *Analysis of existing supply chain to integrate 3rd party flows & solution recommendation*

F&B
BUILDING
ELECTRONICS
COSMETICS

2005-2008 SAP Supply Chain Consultant – PP MM SD

DESIGN, BUILD phases

- *Deployment of core model with migration from legacy systems, “MRP work stream” lead*
- *Implementation of new functionalities to live UK sites*
- *Implementation preparation (FR, DE): workshops, fit/gap analysis, design, customizing & test*
 - Customizing MRP and CRP related parameters
 - Training documentation & delivery through an End-to-End Plan-To-Make flow
 - Integration with PS, CO, QM

SATELLITES

RUN phase

- *Post-go live support, interfacing mainly with key users*
 - Level 2 support around production execution, LTP and PP master data
 - Implementation of new functionalities with customizing and testing phases
 - Creation of queries (SQ01, 02, 03)

AERONAUTIC

SCOPING phase

For the head of IT department, Roadmap delivery for the front office applications (APO & BW):

- *Scoping of the existing systems landscape and SWOT analysis*
- *Planning of the applications roadmap evolution (workshop qualification and costing)*

ELECTRONICS

RUN phase

For the In-flight Product Logistics department:

- *Training of new Field Application Managers on the SAP core model*
- *Re-engineering of warehouse receiving and order monitoring processes*
- *Operational support on warehouse operations & training of local staff*
- *Root cause analysis of issues and delivery of a corrective action plan*

PASSENGER
TRANSPORT

SAP project phases: BUILD, RUN

	<p>For the Service Parts Logistics department, supporting the core model roll out in Austria:</p> <ul style="list-style-type: none"> • <i>Functional tests, interfaces tests, batch jobs monitoring</i> • <i>Issues resolution and assistance to the MM business leader</i> <p>RUN phase</p> <p>Supporting In-flight Product Logistics department in the post-go live phase:</p> <ul style="list-style-type: none"> • <i>Fit/gap analysis between target & existing business processes</i> • <i>Update of business processes & related SAP training documentation</i> • <i>End users support and resolution of daily operational issues</i> <p>DESIGN, BUILD phases</p> <p>Within the Roll in context of the group core model:</p> <ul style="list-style-type: none"> • <i>Participation to the detailed definition of « Enquiry to Payment » flows</i> • <i>Workshops and gap analysis between core model and specific site requirements</i> • <i>Functional specifications for customizing requirements and bespoke developments</i> 	<p><i>AUTOMOTIVE</i></p> <p><i>PASSENGER TRANSPORT</i></p> <p><i>PAPER</i></p>
<p>2004-2005</p>	<p>Internal SAP Consultant – PP MM</p> <p>BUILD, RUN phases</p> <ul style="list-style-type: none"> • Scoping, user requirements analysis, functional specifications (PtoP, PtoM) • Gap analysis with existing US model • Logistics procedures definition, documentation, end users training • Leading integration and user acceptance testing • Supervision of external consultants • Supervision and leadership on Kanban operations • Project planning and reporting 	 <p><i>AUTOMOTIVE</i></p>

Autres experiences - projets

<p>2002-2003</p>	<p>Supply Chain projects</p> <p>Internal Consultant</p> <ul style="list-style-type: none"> • Logistics action plan to support the production transfer from an English to an Hungarian plant <p>Award to Launch Support</p> <ul style="list-style-type: none"> • Study and quote of logistics solutions proposed to customers • Creation of an intranet web site dedicated to new sites launch • Creation of a “Plan For Every Part” model (using MS Access) <p>MP&L Launch Resident</p> <ul style="list-style-type: none"> • Definition and agreement of logistics procedures with the customer • Support MRP system & EDI interface implementation • Creation of the “Plan For Every Part” 	
-------------------------	--	---

- Coordination of the inbound supply chain, liaising with Visteon plants

VRAP Launch Resident

In UK

- Supply chain design following customer requirements
- Quote for new site MP&L related activities
- Creation of the “Plan For Every Part” and launch plan
- Study and selection of the simplest and cost effective MRP solution
- Launch readiness review lead

In SPAIN

- Implementation of a Kanban replenishment system
- Logistics procedures definition
- Operational resources planning and training
- Creation of the “Plan For Every Part”
- Implementation of “visual factory” and “lean manufacturing” standards

1998-2001 Logistics Analyst

TOYOTA

Re-engineering of the pan-European supply chain of service parts

AUTOMOTIVE

Responsible for transport:

- Strategic approach for market tender & forwarders selection
- Feasibility study, simulations & implementation with logistics provider
- Contract negotiation
- Modeling of European freight flows and costs to extract future savings

Country manager for France:

- Analysis of distributor’s logistics operations and costs
- Negotiation with distributor on costs and practical adaptation to the new Dealer Service Policy

Following a “Day 1” action plan:

- Synchronization of operations with ‘Systems Planning’ and ‘Depot Planning’ departments

1997-1998 Logistics Controller

Valeo

Procurement and inventory control within budgeted levels (1,200 refs)

AUTOMOTIVE

- Acting as logistics interface with supplier and responsible for customer service rate
- Service rate improved via participation to:
 - Development of new MRP system specifications
 - Identification and implementation of re-sourcing possibilities
 - Supplier integration development programme

Formations & Certifications SAP

- Certification Planning & Manufacturing with SAP ERP 6.0 (PLM114, SCM240, SCM310)
- Certification Solution manager Implementation projects with SM (SMI310)
- Cross-functional customizing in MM (SCM550)
- Finance/Logistics interface (WFRIFL)
- SAP ME (Manufacturing execution) SAP Internal training and delta training (DME52 Delta)

Diplôme

ESCI (Fontainebleau) Négociateur d'affaires internationales, Bac +5
